Subject Index

Agranulocytosis, drug-induced, use of colony stimulating factors for the treatment of (Bradford *et al*), 182
AIDS era, the rhythmic paradoxical eruption spectrum in (Pizarro & Pinilla), 558
AIDS, murine, the bone marrow in (Magnani *et al*), 539
Anaemia, aplastic, avascular necrosis after treatment of, with antilymphocyte globulin and high-dose methylprednisolone (Marsh *et al*), 731
Anaemia, refractory, with excess of blasts, immunotyping of blasts in (Oertel *et al*), 305
Anaemia, sickle cell, inhomogeneity of the circulating BFU-E regulation in: accessory cells properties and BFR-E growth factor response pattern (Croizat & Nagel), 481
Antigens, HLA-DR, CD33 and CD13 surface, in purified bone marrow and peripheral blood CD34+ haematopoietic progenitor cells, further investigations on the expression of (Pierelli *et al*), 24
Antithrombin III activity in a healthy population, influence of demographic factors on (Tait *et al*), 476
Antithrombin deficiency, type I, identification of nine novel mutations in, by heteroduplex screening (Chowdhury *et al*), 656
Asplenic patients, management of (Lortan), 566
Autoimmune thrombocytopenic purpura patients, the clinical outcome of, is related to their T cell immunodeficiency (Garcia-Suarez *et al*), 464

Blood filters, third generation, a new method to study the efficiency of (Sivakumaran *et al*), 175
Bone marrow transplantation for myelodysplastic syndrome and secondary leukaemias (De Witte & Gratwohl), 361
Book reviews
Acute Leukemias. Pharmacokinetics and Management of Relapsed and Refractory Disease, 757
Blood Substitutes and Oxygen Carriers, 561
Blood Transfusion in Clinical Medicine, 9th edn, 757
Cytokine Therapy, 560
Cytokines in Haemopoiesis, Oncology and AIDS II, 560
Clinical Haematology, 7th edn, 359
Haemopoietic Growth Factors and Mononuclear Phagocytes, 757
Low Molecular Weight Heparin in Clinical Practice, 359
The Molecular Genetics of Haematological Malignancy, 561
The Myelodysplastic Syndromes, 758

Calcium, intracellular, in CD4 + T cells, blunted rise in, in response to mitogen following autologous bone marrow transplantation (Guillaume *et al*), 131
CAMPATH-1 monoclonal antibody therapy in severe refractory autoimmune thrombocytopenic purpura (Lim *et al*), 542
Cells, purified human cord blood haemopoietic, and accessory, interactions between (Cicuttini *et al*), 365
c-fms expression in B-cells and response to M-CSF (Rosti *et al*), 756
Congenital dyserythropoietic anaemia, an unusual variant of, with mild maternal and lethal fetal disease (Roberts *et al*), 549
Cytomegalovirus, PCR detection of: a review (Smith & Dunstan), 187

Dermatan sulphate, low molecular weight (Desmin 370), does not cross the ovine placenta (Dawes & Lumbers), 90
Diamond-Blackfan syndrome (congenital hypoplastic anaemia), long-term survival and cure after marrow transplantation for (Greinix *et al*), 515

Endocarditis, infective, mechanisms of platelet aggregation by *Streptococcus sanguis*, a causative organism in (Ford *et al*), 95
Erthrocyte autoantibodies, the monocyte monolayer assay and *in vivo* haemolysis (Zupanska *et al*), 144
Erythrocyte surface comonents, human, degradation of, by human neutrophil elastase and cathepsin G: preferential digestion of glycophorins (Bykowska *et al*), 736
Erythrocytes, membrane properties of, in subjects undergoing multiple blood donations with or without recombinant erythropoietin (Brugnara *et al*), 118
Erythroid repopulation, accelerated, with no stem-cell competition effect in children treated with recombinant human erythropoietin after allogeneic bone marrow transplantation (Locatelli *et al*), 752
Erythropoietin, intravenous recombinant, high doses of, for the treatment of anaemia in myelodysplastic syndrome (Goy *et al*), 232
Evans syndrome, parvovirus B19-associated haemophagocytosis in: aplastic crisis accompanied by severe thrombocytopenia (Uike *et al*), 530

Factor VIII concentrate (8Y), dry heated, prepared by Bio Products Laboratory (BPL), confirmation of viral safety of: a report on behalf of U.K. Haemophilia Centre Directors (RIZZA *et al*), 269
Factor VIII concentrates, different, the behaviour of, in a chromogenic factor X-activating system (KEMBALL-COOK *et al*), 273
Factor IX concentrate, a highly purified, reduced coagulation activation following infusion of, compared to a prothrombin complex concentrate (HAMPTON *et al*), 279
Factor IX replacement therapy, disseminated intravascular coagulation in a patient with haemophilia B during (OHGA *et al*), 343
Factor XI deficiency, congenital, and an acquired inhibitor, successful childbirth by a patient with (GINSBERG *et al*), 172
Formaldehyde, fixation with induces expression of activation dependent platelet membrane glycoproteins, P selectin (CD62) and GP53 (CD63) (CAHILL *et al*), 527

GM-CSF: modulation of biochemical and cytotoxic effects of tiazofurin in HL-60 cells (FRITZER *et al*), 552
Granulocyte colony-stimulating factor down-regulates the surface expression of the human leucocyte adhesion molecule-1 on human neutrophils *in vitro* and *in vivo* (OHSAKA *et al*), 574
Granulocyte colony-stimulating factor (G-CSF)-induced mobilization of circulating haemopoietic stem cells (TESHIMA *et al*), 570
Granulocyte-macrophage colony-stimulating factor, effect of cytotoxic drugs on mature neutrophil function in the presence and absence of (HUMPHREY *et al*), 316
Growth factor-beta, transforming, chronic administration of, suppresses erythropoietin-dependent erythropoiesis and induces tumour necrosis factor *in vivo* (CHUNCHARUNEE *et al*), 374
Growth factor β-1, transforming, increased serum levels of, in patients affected by thrombotic thrombocytopenic purpura (TTP): its implications on bone marrow haematopoiesis (ZAULI *et al*), 381
Growth inhibition by lipopolysaccharide and pertussis toxin, the resistance of macrophage-like tumour cell lines to (XIE *et al*), 392
GVHD, third party mediated, and graft rejection, irradiation of transfused products in prevention of (MURPHY *et al*), 558

Haematological disorders and occupational hazards: a British Society for Haematology/Health and Safety Executive study (JACOBS *et al*), 555
Haematopoiesis, clonal, in children with acquired aplastic anaemia (TSUGE *et al*), 137
Haemophilia B carrier detection in Caucasian and Thai populations, its use for: an MseI RFLP in the 5′ flanking region of the factor IX gene (WINSHIP *et al*), 101
Haemophilia B, detection of a molecular defect in 40 of 44 patients with, by PCR and denaturing gel electrophoresis (TARTARY *et al*), 662
Hb A_2 levels, high, normal individuals with (GASPERINI *et al*), 166
Heparin-induced skin reaction due to two different preparations of low molecular weight heparin (PHILLIPS *et al*), 349
Heparin-induced thrombocytopenia and thrombosis: clinical and laboratory studies (BOSHKOV *et al*), 322
Herpesvirus 7, human, from a child with symptoms mimicking Epstein-Barr virus infection, isolation of (KAWA-HA *et al*), 545
HIV-infected individuals, prospective follow-up of monoclonal gammopathies in (LEFRÈRE *et al*), 151
Hodgkin's disease and non-Hodgkin's lymphoma, subclinical autonomic dysfunction in patients with (TURNER *et al*), 623
Hodgkin's disease cases, most, lymphotoxin, tumour necrosis factor and interleukin-6 gene transcripts are present in Hodgkin and Reed-Sternberg cells of (FOSS *et al*), 627
Hodgkin's disease, evaluation of late cardiotoxicity with pulsed Doppler echocardiography in patients treated for (KREUSER *et al*), 615
Hodgkin's disease, ICAM-1 tissue overexpression associated with increased serum levels of its soluble form in (PIZZOLO *et al*), 161
HPFH in a British family identified by heteroduplex formation, the molecular basis of (CRAIG *et al*), 106

IgG Fc receptor type II on human megakaryoblastic cell lines (MEG-01 and UT-7), identification of (WU *et al*), 204
Ig heavy chain CDR3 locus, PCR-based immunogenotyping at: improvements in resolution (POLLARD *et al*), 169
Immune thrombocytopenic purpura, platelet activation induced by an antiplatelet autoantibody against CD9 antigen and its inhibition by another autoantibody in (YANABU *et al*), 694
Interleukin-8, the effects on neutrophil FmetLeuPhe receptors, CD11b expression and metabolic activity, in comparison and combination with other cytokines (ROBERTS *et al*), 586
Interleukin-11, recombinant human, effect on rat megakaryopoiesis and thrombopoiesis *in vivo*: comparative study with interleukin-6 (YONEMURA *et al*), 16

Lennert's lymphoma (lymphoepithelioid cell lymphoma): clinical features derived from analysis of 108 cases (PATSOURIS *et al*), 346
Leukaemia, acute biphenotypic: immunotypic and cytogenetic analysis (HANSON *et al*), 49
Leukaemia, acute lymphoblastic, common, direct sequence analysis of TCR Vδ2-Dδ3 rearrangements in, and application to detection of minimal residual disease (LANGLANDS *et al*), 648
Leukaemia, acute lymphoblastic, expressing myeloid markers, role in growth regulation of cytokines and cytokine receptors in (KOMADA *et al*), 408
Leukaemia, acute lymphocytic, differential expression of termal transferase (TdT) in, expressing myeloid antigens and TdT positive acute myeloid leukaemia as compared to myeloid antigen negative acute lymphocytic leukaemia (PAIETTA *et al*), 416
Leukaemia, acute myeloblastic, bone marrow transplantation for: an EBMT Leukaemia Working Party prospective analysis from HLA-typing (LJUNGMAN *et al*), 61
Leukaemia, acute myelogenous, without a Philadelphia chromosome, BCR-ABL rearrangement in a child with (BORKHARDT *et al*), 341
Leukaemia, acute myeloid, carrying an activating N-*ras* mutation, occurrence of point mutations in p53 gene is not increased in patients with (BÜHLER-LECLERC *et al*), 443
Leukaemia, acute myeloid, impact of leucocyte-depleted blood components on the haematological recovery and prognosis of patients with (OKSANEN & ELONEN), 639
Leukaemia cell line, K562 human, differentiation and multidrug resistance in response to drug treatment in (MARKS *et al*), 83
Leukaemia, chronic lymphocytic, analysis of rearranged immunoglobulin genes indicating a process of clonal evolution in (HAKIM *et al*), 436
Leukaemia, chronic myelogenous, pulmonary fibrosis with megakaryocytoid cell infiltration in accelerated phase of (YAMAUCHI *et al*), 329
Leukaemia, chronic myeloid, in first chronic phase, minimal residual disease after allogeneic bone marrow transplantation for: correlations with acute graft-versus-host disease and relapse (CROSS *et al*), 67
Leukaemia, chronic myeloid, localized relapse of, post allogeneic bone marrow transplantation (WEBB *et al*), 178
Leukaemia, chronic myeloid, usefulness of the rearrangement of the bcr/abl gene in extramedullary (lymph nodes) blast crisis diagnosed in (GONZÁLEZ *et al*), 351
Leukaemia, *de novo* acute myeloid, with trilineage myelodysplasia and with myelodysplastic remission marrow, clonal evolutions

during long-term cultures of bone marrow from (TAMURA *et al*), 219
Leukaemia, hairy cell, long-term follow-up of patients with, treated with pentostatin: lymphocyte subpopulations and residual bone marrow infiltration (THALER *et al*), 75
Leukaemia, Ph1-positive chronic myeloid, the type of BCR/ABL junction does not predict the survival of patients with (ZACCARIA *et al*), 265
Leukaemias, B lymphoid, immunoglobulin V_H4 gene usage in (DEANE *et al*), 242
Leukaemic and normal haemopoietic cells, differential action of diffusible molecules in long-term marrow culture on proliferation of (FIRKIN *et al*), 8
Lymphoma cells, follicular non-Hodgkin's, carrying t(14;18), quantitation of, by competitive polymerase chain reaction (MEIJERLINK *et al*), 250

MDS, familial, with 5q− abnormality (GRIMWADE *et al*), 536
Megakaryocyte colony-stimulating factor (meg-CSF) is a unique cytokine specific for the megakaryocyte lineage (ERICKSON-MILLER *et al*), 197
Melanomas, localized, and autoimmune disorders, markers of procoagulant imbalance in patients with (TRIPODI *et al*), 670
Messenger RNA for HLA class I in human paltelets, the presence of, and its capability for protein biosynthesis (SANTOSO *et al*), 451
Mitogen stimulated human lymphocytes, accumulation of 5-methyltertrahydrofolic acid and folylpolyglutamate synthetase expression by (FORT *et al*), 595
Monoclonal gammopathy, no help in the diagnosis and prognosis of: serum deoxythymidine kinase (BÄCK *et al*), 746
Monocyte specific esterase, human, subcellular fractionation studies indicate an intracellular localization for (PATEL *et al*), 608
Monocytes in Nak^a-negative subjects whose platelets lack GPIV, expression of GPIV and Nak^a antigen on (TAKE *et al*), 387
Multiple myeloma, serum thymidine kinase as a prognostic indicator or patients with: results from the MRC (UK) V Trial (BROWN *et al*), 238
Myelodysplastic syndrome, immunophenotypic characterization of myelomonocytic cells in patients with (FELZMANN *et al*), 428
Myelodysplastic syndrome with eosinophilia in bone marrow (MATSUSHIMA *et al*), 636
Myelodysplastic syndromes, impairment of GM-CSF production in (VISANI *et al*), 227
Myelodysplastic syndromes in children (JACKSON *et al*), 185
Myelodysplastic syndromes, induction of TNF-α in patients with, undergoing treatment with interleukin-3 (SEIPELT *et al*), 749
Myelodysplastic syndromes, management of (HIRST & MUFTI), 191
Myeloma, multiple, improved cytogenetic analysis of bone marrow plasma cells after cytokine stimulation in: a report on 46 patients (FACON *et al*), 743

Neutropenia, chronic, a pilot study of low-dose recombinant human granulocyte-macrophage colony-stimulating factor in (KACZMARSKI *et al*), 338
Neutrophil increment, blood, after a single injection of rhG-CSF or rhGM-CSF correlates with marrow cellularity and may predict the grade of neutropenia after chemotherapy (HANSEN *et al*), 581

PADGEM/GMP-140 expression on platelet membranes from homozygous beta thalassaemic patients (DEL PRINCIPE *et al*), 111
Paroxysmal nocturnal haemoglobinuria, defective and normal haematopoietic stem cells in (TERSTAPPEN *et al*), 504
Paroxysmal nocturnal haemoglobinuria, induction of FcγR-III (CD16) expression on neutrophils affected by, by administration of granulocyte colony-stimulating factor (NINOMIYA *et al*), 497
Platelet heterogeneity, blood: evidence for two classes of platelets in man and rat (BEHNKE & FORER), 686
Platelet viability of stored platelet concentrates, concurrent lable method with ^{111}In and ^{51}Cr allows accurate evaluation of (HOLME *et al*), 717
Progenitor cells, peripheral blood, mobilized by chemotherapy plus granulocyte-colony stimulating factor accelerate both neutrophil and platelet recovery after high-dose VP16, ifosfamide and cisplatin (BRUGGER *et al*), 402
Progenitors, circulating haematopoietic, during chemotherapy-induced mobilization with or without granulocyte colony-stimulating factors, kinetics of (LIU *et al*), 31
Prostaglandin E_1 for the prevention of hepatic venocclusive disease after bone marrow transplantation, a phase I/II study of (BEARMAN *et al*), 724
Protein C, activated, a molecular model of the serine protease domain of: application to the study of missense mutations causing protein C deficiency (WACEY *et al*), 290
Protein C deficiency, symptomatic type II, caused by a missense mutation (Gly 381→Ser) in the substrate binding pocket (MARCHETTI *et al*), 285
P-selectin, soluble is present in normal circulation and its plasma level is elevated in patients with thrombotic purpura and uraemic syndrome (KATAYAMA *et al*), 702

Rb gene defects in B-CLL clones, confirmation of, and evidence for variable predominance of the Rb defective cells within the CLL clone (KAY *et al*), 257
Reticulocyte, the rejected (CAVILL), 563

Sarcoidosis, diagnosis of, by bone marrow trephine biopsy (LEVY *et al*), 179
Sclerosis, systemic, whole blood platelet aggregation and coagulation factors in patients with (GOODFIELD *et al*), 675
Sickle cell disease, the clinical significance of serum transferrin receptor levels in (SINGHAL *et al*), 301
Suppressor cell activity, the effect of methyldopa and procainamide on, in relation to red cell autoantibody production (GARRATY *et al*), 310
Sweet's syndrome associated with myelodysplasia: possible role of cytokines in the pathogenesis of the disease (REUSS-BORST *et al*), 356

T-cell receptor α and β variable genes in normal and malignant human T cells, expression of (HU *et al*), 39
Thalassaemia, β-, in Algeria, the spectrum of: possible origin of the molecular heterogeneity and a tentative diagnostic strategy (BENNANI *et al*), 335
Thalassaemia, β, mouse, improvement by hydroxyurea (SAUVAGE *et al*), 492
Thalassaemic, β-, heterozygote, a Chinese, functional analysis of the 4 bp deletion identified in the 5′ untranslated region of one of the β-globin genes from (FRANCÈS *et al*), 163
Thrombin-receptor, the platelet-type, peripheral blood lymphocytes express (HOWELLS *et al*), 156
Thrombocythaemia, alpha interferon raises serum beta-2-microglobulin in patients treated for (REMES *et al*), 353
Thrombocytopenia, heparin-associated: immune complexes are attached to the platelet membrane by the negative charge of highly sulphated oligosaccharides (GREINACHER *et al*), 711
Thrombocytopenia, neonatal, and hidden maternal autoimmunity (TCHERNIA *et al*), 457
Transfer factor, effect on myelosuppression and related morbidity induced by chemotherapy in acute leukaemias (FERNANDEZ *et al*), 423

Tumour-associated antigen expression in human haematological malignancies (CHAMBOST *et al*), 524
Tyrosine kinases in platelet signalling (DHAR & SHUKLA), 1

Ubiquitin binding site on murine haemopoietic progenitor cells, demonstration of: implication of ubiquitin in homing and adhesion (PARAKH & KANNAN), 212

Vitamin K metabolism and vitamin K1 status in human liver samples: a search for inter-individual differences in warfarin sensitivity (THIJSSEN & CRITTIJ-REIJNDERS), 681

von Willebrand's disease, acquired, gastro-intestinal bleeding in: efficacy of high-dose immuno-globulin where substitution treatments failed (WHITE & CHISHOLM), 332
von Willebrand's disease, monoclonal and acquired, expression of GpIb on plasma cells in a patient with (SCROBOHACI *et al*), 471
von Willebrand's disease mutations, type IIA, an alternative strategy for identification of (WINTER & MAYNE), 521
von Willebrand factor gene variable number tandem repeat sequence in intron 40, instability of repeats of (EIKENBOOM *et al*), 533

ZB51: a monoclonal antibody reactive with human plasma cells (WEBSTER *et al*), 602
